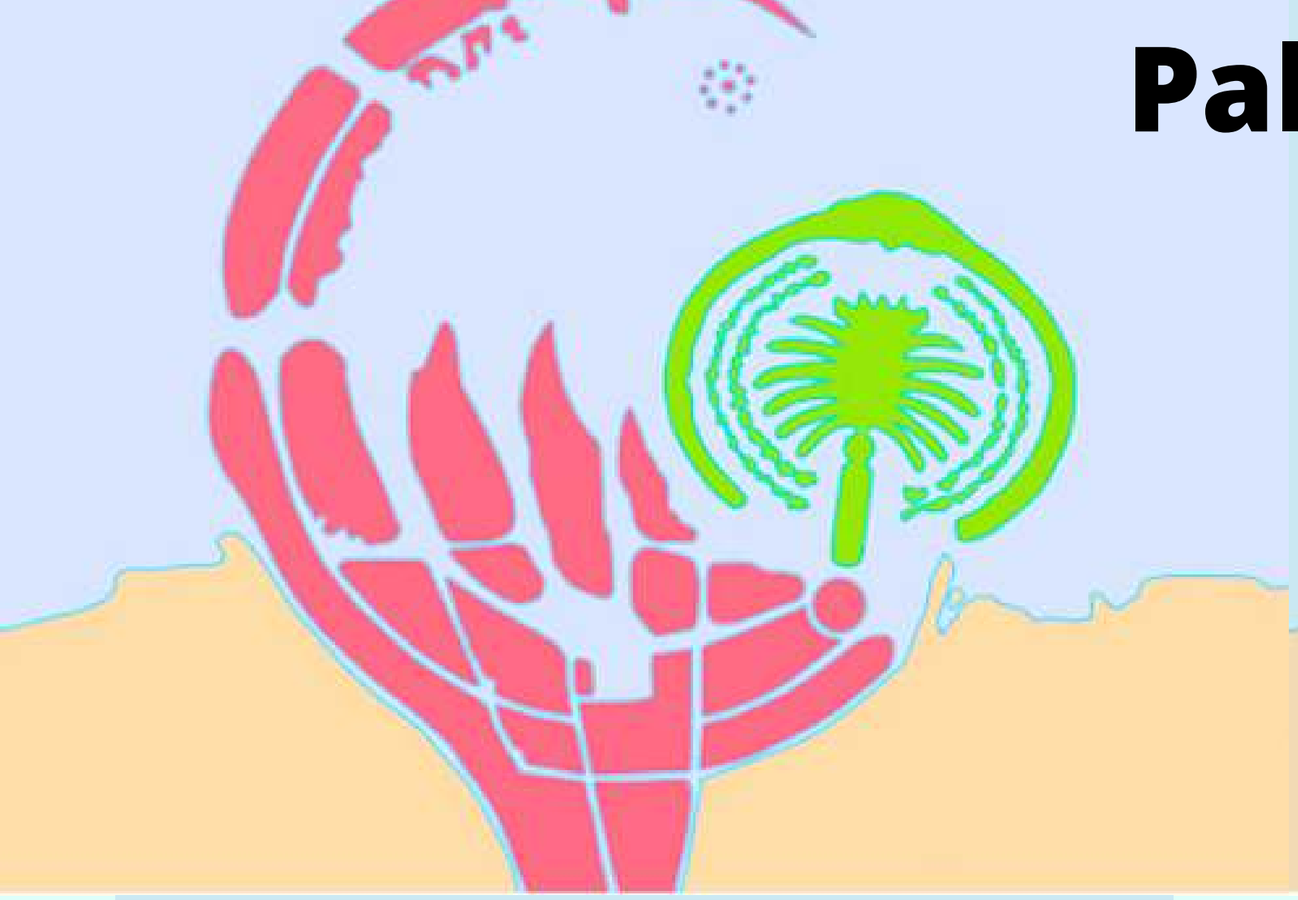
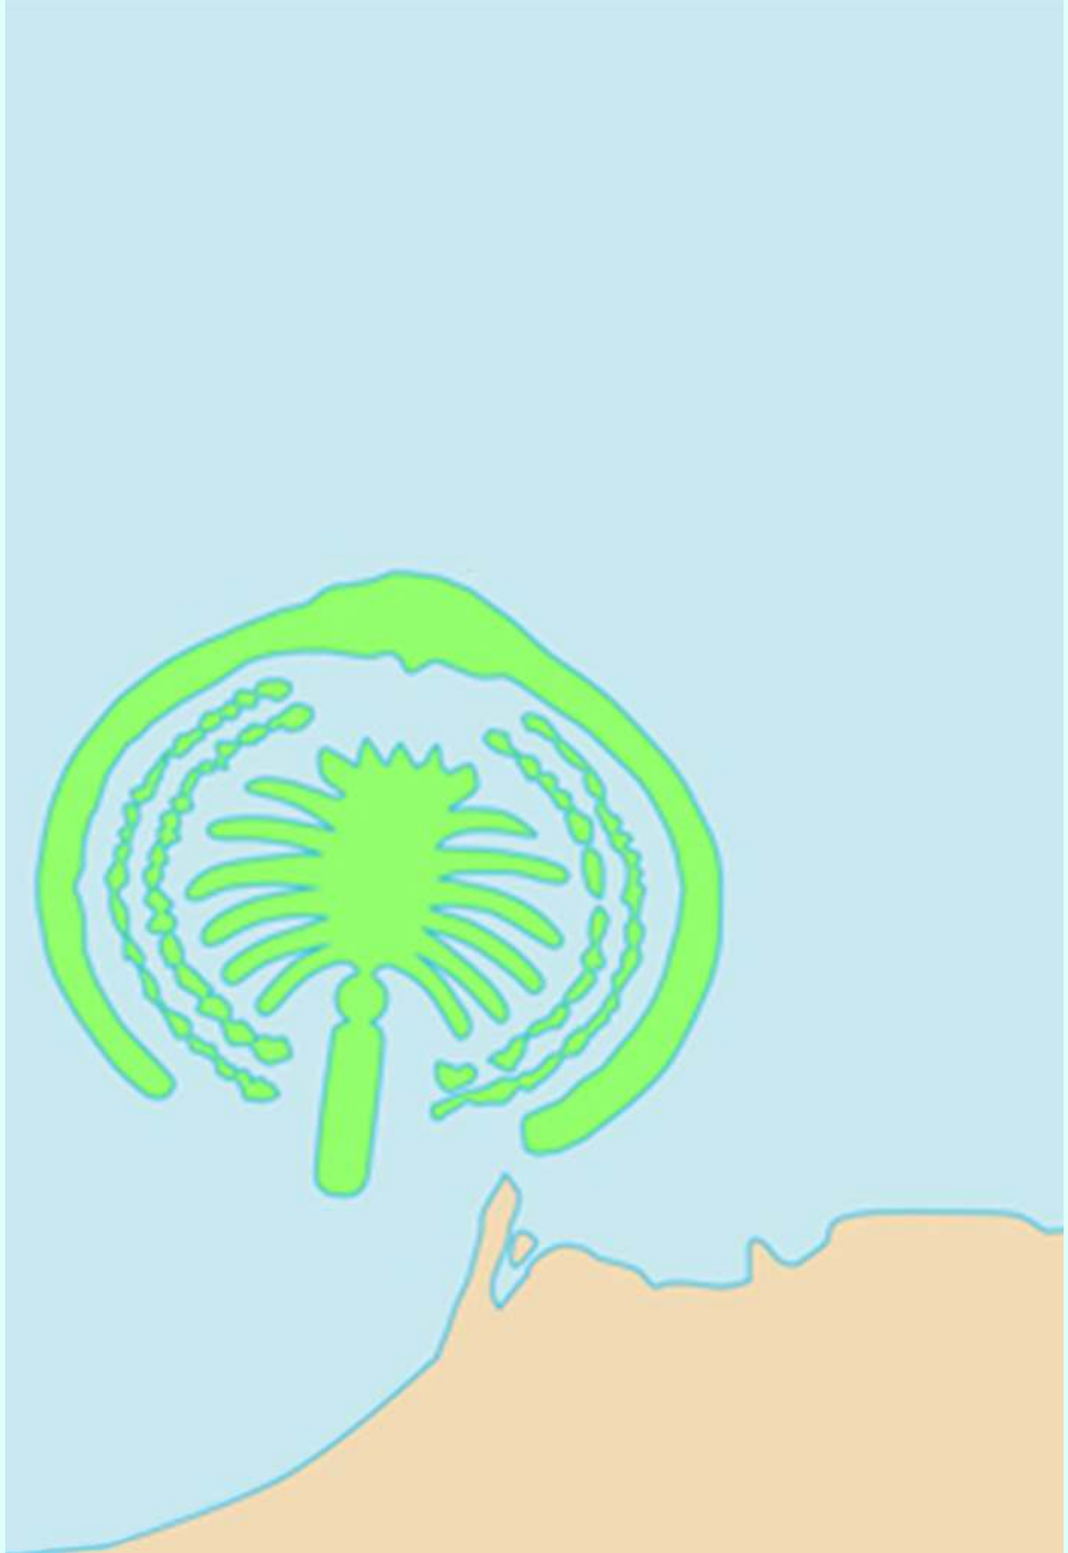
How I made "The Palm, Jabel Ali"





For Burj Al Arab

I got rid of the background as much as I could here and cropped the photo.

I gathered photos of Burj Khalifa and Dubai Mall, both separate and together, to see which would suit my map more

I removed the background, changed the colour, and cropped it.

For the Global Village Landmark, I decided on using a logo I found on the internet. It's simple, detailed and coloureful.

I debated on if I should use a photo of the building or the logo.

WOLRD TRADE CENTRE

However, in the end, I decided to stick with the logo, to keep it more simple.

These are the rest of the logos I used for other landmarks.
